Removal of Change of Management.

The Evansville Journal states that there is a rumor that some very important changes are now going on in the management and control of the P. D. & E. It is understood that C. R. Cummings, president of the Nickel Plate road, president of the Lake Erie and Western, and also president of the P. D. & E., will soon get possession of the I. B. & W., which will give it the Nickel Plate, a through line from New York to Evansville and St. Louis. It is also rumored the P. D. & E. will be merged into the Nickel Plate or Seney system, the parties who want to extend the road to the south from Evansville. Rumor also has it that E. B. Anderson, general passenger agent of the P. D. & E., will retire to accept another position, and that H. C. Parker, present traffic manager, will attend to the duties of both departments. This, if carried out (which will be within the next thirty days) will make many and important changes in the offices and employees of the P. D. & E., which will, from being merged, report as a division to the Nickel Plate.

The Lake May Happen in Decatur

The warning to Decatur occurred on Saturday at Litchfield:

LITCHFIELD, ILL., October 8. The main pipe of the water works burst early this morning, near the reservoir, causing great inconvenience to many of the citizens, and requiring the labor of a force of men all day to repair the damage. About thirty feet of main pipe was put in, the work completed, and water was again turned on about 5 o'clock this afternoon.

Decatur has but one water main running to the works. There ought to be two of them.

A MEXICAN dog sent from Las Vegas, N. M., arrived in Decatur yesterday.

He was killed by Mrs. Chris. Smith, daughter of Farmer Coltrin, of this office. The canine is not one of fine appearance, and has nothing about him to win the interest or friendship of Decatur people, but he came from Mexico! The express charges were \$3.40, which amount was paid this morning by Mr. Coltrin.

Rev. F. D. Power Coming.

On Wednesday evening of the present week—Oct. 11 the Rev. F. D. Power, the well-known pastor of the Christian church at Washington City, of which the late President Garfield was a member, will deliver a sermon at the Christian church in Decatur. Rev. Power is the present chaplain of the National House of Representatives. He will visit Bloomington on Thursday. Rev. Power is making a tour of the country in the interest of the Garfield Memorial church at Washington. All our people are invited to attend the services at the Christian church Wednesday night.

The case of the City of Decatur vs. the Walsh Company, charged with obstructing the College street crossing of the road on Sept. 24, was before Justice Corley this forenoon. The complaining witness was W. B. Davidson. E. P. Vail appeared for the Walsh and David Hinchison for the city. After hearing the evidence and argument by Mr. Vail the justice stated that he would render his decision on Saturday next.

The Republican in its receipt of excellent samples of Macon county products.

This morning Thomas Albert, farmer and dispenser of unadulterated justice, brought us three large and perfect potatoes of the "Mammoth Pearl" variety, grown upon Henry Cassell's farm near the city. The seed came from Detroit, Mich. These potatoes are among the best we have seen.

Farmer M. Finley, whose farm is in Friends Creek township, has demonstrated that he knows how to produce mammoth potatoes of the "Early Rose," "Peerless" and "Red Peachblow" varieties. He brought us a basketful of his potatoes this forenoon, for which he has our thanks. They are all large and tempting and each variety is hard to beat.

The Princess of Paris.

On Thursday evening next our people will have an opportunity to see the talented and popular New York actress, Miss Rose Eyttinger, in the last great French society drama in three acts and three tableaux, entitled "The Princess of Paris." Miss Eyttinger will be supported by Col. William E. Sims's sterling dramatic company, of Park theatre, Brooklyn, comprising such well-known artists as Atkins Lawrence, George Morton, William Herbert, C. F. Montana, L. J. Loring, Frank Dalton and Daniel Hart, and Mrs. Georgie Knowlton and Mrs. Nellie Shannon. The play is very popular and met with an enthusiastic reception in the east. Miss Eyttinger, in the role of Lionette De Courlin, has a character peculiarly adapted to her talents, and her presentation of it is pronounced by the metropolitan press to be one of the best pieces of acting seen on the American stage in many years. Popular prices - 35, 50 and 75 cents.

It is a matter worthy of special mention that a substantial plank walk, about five feet wide, has been put down leading from the Union depot platform to the opposite platform where the street cars stop, for the special accommodation of the traveling public. Hereafter people will not have to paddle through water or stumble over the iron rails to reach the street cars. The walk should have been built long ago, but better late than never. The Central railroad company put it down, but President Priest furnished the lumber.

Ex-Gov. John L. Rountt, who was in the city last week, it is understood, visited his old home for the purpose of disposing of his property and assisting his son Frank in selling a farm a few miles east of the city. Gov. Rountt recently purchased a very fine farm consisting of 900 acres in southwestern Missouri, and he is desirous of placing his son Frank in the management of the property. It is expected that Mr. Rountt will effect arrangements by which he will be able to sell his McLean county farm in a short time. Bloomington Leader.

he never sulks or bears malice long,

whereas the Afghan does both. Here

are illustrations in point. I never re-

member having an Afghan whipped in

the jail without the fellow showing by his

sullen looks and scowling face that he

was not at all satisfied with his punish-

ment. But here, in the Durah Ghazi

Khan Jail, the punishment over, the

Bloch is as frank and pleasant as his

was before. One man, I remember,

who was in a bad temper, would not

work. He was warned that he would

be whipped. He merely laughed, and

said: "That won't make any differ-

ence, sahib." He was shown a

man being whipped, he only looked on

calmly. Finally he was whipped him-

self. He was taken out of his cell,

stripped naked, tied wrists and ankles

to the triangle, and given twenty or

thirty-forgotten the exact number-but

struck with a rattan. During the opera-

tion he bit at the wood, bit almost

through his tongue, but never either

groaned or winced. The punishment

over, he threw himself on the ground on

his face, when the guard came, the

water was dashed over him, and then

the commissary water-carrier stood

upon the beaten parts to deaden the

pain. Still he would not work. I saw

him a day or two after in his cell, look-

ing happy and cheerful, though he

must have been very sore, and for

days would not be able to sit down. He

was pleased to see me. He seemed to

have an idea that not being in jail

for any specific and proved offense

was not right. To give him hard

labor, and so put him on the level of a

convicted felon. I remem-

bered with him for his obstinacy, to no

effect. One day I observed his splendid

curly shining with oil, and he had

himself. He had said to me, "I cut

my hair; still no effect. At last, as his

example was becoming infectious, I

warned him that if he would not work

I should have him transferred to the

Multan Jail, where I believe his Ab-

salom-like hair would be cut short.

That threat frightened him, his ring-

lets being the glory of the Bloch; he

and he would try work. He made

a promise of trying, and failing, was

sent off to Multan, where I have no

doubt he is now, though prison-cropper,

as smiling and light-hearted and do-

ing nothing as he was here. Now it is not

the Afghan nature to believe as that

Bloch did, and that Bloch's case is

typical of others. Similarly circum-

stances, the Afghan would have sulked,

worked, fallen ill from fretting, and

some day after his release, perhaps,

kill the human instrument who had

beaten him. -Blackwood's Magazine.

-The living skeleton of a San Fran-

cisco side show went out for a walk on

a railroad track. A locomotive knocked

him down and ran over him. He arose

and walked his way. The four

inches between the cowcatcher and the

ties had been sufficient for his thinness.

He was incidentally well advertised, but

paid for it in bruises and scratches. -M.

Summer Complaint.

For cholera in infants, teething, summer

complaint, lux or cholera infantum, for-

mula's Compound is the King of all

remedies; it defies all competition. For

adults, in dysentery, flux, cramp colic,

congestion, neuralgia of stomach or

intestines, cholera's reputation is unimpaired.

Man is the only animal that

can be taught to sleep quietly on an em-

pty stomach. The brute creation re-

sists all efforts to coax them to such a

violation of the laws of Nature.

The lion roars in the forest until he

has found his prey, and when he has

devoured it he sleeps over until he

needs another meal. The horse will

eat at night in the stable and the

pig will squeal all night in the pen,

refusing all rest or sleep until they

are fed. The animals which chew

the cud have their own provision for

a late meal just before dropping off

to their nightly slumbers. Man can

train himself to the habit of sleep-

ing without a preceding meal, but

only after long years of practice.

The sleep which comes to adults

long hours after partaking of food, and

when the stomach is nearly or

quite empty, is not after the type of

infantile repose. There is all the

difference in the world between the

sleep of refreshment and the sleep

of exhaustion. To sleep well the

blood that swells the veins in our

head during our busy hours must

flow back, leaving a greatly dimi-
